THOSE LIGHT FIGURES.

U NDER THE CAPTION "Memo. No. 1 of the Other Side," in a statement on the sixth page of Sunday's Herald addressed "to the patrons of the Utah Light & Railway company who are also readers of The Salt Lake Herald," the light company challenges the correctness of the figures given by The Herald showing the difference in the light ing charges of that company and an independent plant. The article in which these figures were given was published in The Herald in the issue of March 3 under the head, "Escape Clutch of Light Trust. Flat Tenants save 40 per cent by Patronizing Independent Plant." In rebuttal the light company says We do not know from what source the

formation was obtained upon which is sed the statement as to the charges of e Utah Light & Rallway company for e period mentioned, as the records of e company show no such charges were ade. The company's records show as

for the six flats for the month of Jan lary of \$42.20; the light company ows a charge for thirty-six days of \$50.23, which is, allowing for the extra fore than The Herald claimed.

Relating to the change from the Utah Light & Railway company's ervice to that of the independent plant, the light company makes the Mowing statement:

the balance of the charge may have estimated from Feb. 2 to the 7th.)

e total net, charge made by the Utah & Railway company for light servinished the occupants of these identiats in February, 1904, for THIRTY-days, viz.: from Jan. 25 to Feb. 25, sive. was \$22.39, which amount was strongly as follows.

The Herald is assured by competent At any rate, the charge is no lower the same month in 1905. Referring to who has made one mistake from makone year ago is begging the question: the charge made by The Herald, and nally damned thereby. fully substantiated by figures, is that the present service of the light company is not up to the efficiency called for by the company's franchise, and ticing at the bar, however, that the charges made by the company are entirely out of proportion to the service rendered.

THE LEGISLATURE.

W EDNESDAY IS THE LAST day of the present legislative session, though the law makers will probably have to follow an established custom and "saunter" until Saturday night to complete absolutely necessary business. Just now, the senate and house are imperilling important meas ouse bills because the house has held up legislation originating in the senate. Both houses are on their dignity and neither seems to realize that the people elected them to do business for the public welfare, regardless of any petty little squabbles or questions of fortune amounting to \$5,000,000. Now personal feeling.

Nearly sixty days has been consumed with mighty little to show for the time and expense that have been given to the business in hand. Some sure to be a rush summer and expense that have been given to the business in hand. Some sure to be a rush summer and other titled gentlemen. There is sure to be a rush summer and s

THE SALT LAKE HERALD few members have been diligent and faithful, but there are others who have been notable chiefly as obstructionists and others who have distinguished themselves only by their inability to do anything.

So far the record of things done is fairly presentable, but the things undone which should have been done make an unenviable catalogue. Just for instance, a bill has passed the senate and is held up in the house, providing for what is known as a scrip viding for what is known as a scrip and Miss Katherine Creary, mother and sister of Captain William P. Creury, who has been stationed at San Francisco in the paymaster's department for the past year, is relieved from duty there and after a brief furlough will sail for Manila to report for duty to the commanding general there. Mrs. Creary and Miss Katherine Creary, mother and sister of Captain William P. Creury, who has been stationed at San Francisco in the paymaster's department for the past year, is relieved from duty there and after a brief furlough will sail for Manila to report for duty to the commanding general there. So far the record of things done is system in payment of public improve ment taxes. This is designed to permit public improvements on easy payso that the smaller property owners enabled to get the advantage of increased property values concurrently with the payments. The system is in

vogue in numerous other states, is apis indorsed by all the real estate men of this city. It should be passed at ley. once to obviate the possibility of its failure in the last rush of bills.

loval of the double tax on mortgages has been held up by the senate, not ecause of any particular objection to in the controversy, is deserving of special attention. Generally speakng, any mortgage tax falls finally upon the borrower, since the lender is in position to compel the assumption of any burden by the property owner. Where the law taxes mortgages under the system in vogue here, the evasion of taxation by the owner of the mortgage is a simple matter and the fact is demonstrated almost daily on the have provided non-resident companies gage but are in reality meant to dodge taxes. On the other hand, the owner of a small house and lot has no such means of escape and the result is to make him pay more than his share of the tax falling upon realty. It is an old subject and its discussion depends much upon the point of view, but bill affecting such vital interests ought to be given a more thorough investigation than this bill is getting or

naining for consideration. A legislator finds little enough of hanks and sympathy for his public work even when it is conscientious work; if this legislature is to take home any thanks from the great common people, it is due to "get a move

FOR JUVENILE COURT.

THE HERALD would feel that it was not doing its duty if it failed to say a word in favor of the juvenile ourt bill now pending before the legislature. The measure provides for the establishment of a court with exclusive jurisdiction over juvenile offenders, and with officers whose duty it will be to look after the welfare of the boys and girls that way fall into error. It does not seem to us that there can be serious opposition to this
